On Campus Clubs

Penn State Outing Club	I joined this club during my freshman year, and it has been one of the highlights of my college experience so far. I have met many amazing people in this club while exploring the forests around State College.
Python Learning Organization	Being a part of this club means learning python in a cooperative environment. Having a group to learn with has been useful when needing quick advice or debugging support.
Penn State Investment Association	I joined this club out of an interest in the stock market. Together we have learned the basics of technical financial analysis.
